List of Sacred Works by Dr. Lois Veenhoven Guderian

From the list of pieces provided here, some are written in more than one voicing (Ex: SA, SSA, SATB). Each edition/voicing is a single publication. Pieces or songs that are part of a work, such as a song from a musical or song cycle, are published as part of that work. However, these songs/pieces are also available separately. Some pieces are listed more than once because they belong in more than one category.

A few secular works for children and youth were included in this list because of their educational value in nurturing children's empathy and character and/or for celebrating holidays that are celebrated in religious organizations and communities. Please see also the separate listing of secular works.
